

Key contemporary urban issues and challenges

Presentation

The objective of the class is to develop students' knowledge and understanding of the processes that transform contemporary cities and affect how they are governed. It also aims to familiarize students with the main theoretical controversies that have rocked the world of urban studies and to help them develop a multidisciplinary understanding of the urban phenomenon.

In brief

ECTS credits : 2.0
Number of hours : 18.0
Teaching term : Six-monthly
Teaching activity : Lecture course
Year : Fourth year
Validation : Final written examination
