

Corporate default risk

Presentation

The purpose of this class is to enable students to analyze the default risk of companies. We will approach performance degradation or failure from an essentially financial angle. First of all, the aim is to provide students with the concepts necessary to understand the accounting and financial information produced within companies, so as to enable them to produce financial assessments highlighting the strengths and weaknesses.

In brief

ECTS credits : 3.0

Number of hours : 18.0

Teaching term : Six-monthly

Teaching activity : Lecture course

Year : Fourth year

Validation : Final written examination
