

Monetary macroeconomics

Presentation

This course will help you gain an understanding of the role of money, banks and financial markets in financing the economy. It will analyse developments in monetary theory, particularly in the Keynesian approach. Monetary policy and central banks will be studied. This course will first discuss the foundations of money in capitalism, before focusing on the creation of money, the financial markets, and providing an introduction to monetary theory, and finally to today's monetary policy.

In brief

ECTS credits : 2.0

Number of hours : 18.0

Teaching term : Six-monthly

Teaching activity : Lecture course

Year : Third year

Validation : Final written examination
